

Massachusetts College of Art and Design  
Office of the Registrar

**Double Major and Minor Registration Policy**

All Double Majors and Minors are required to meet with faculty advisors from both majors before they are allowed to register for sections in that major (and/or minor). If your department has pre-determined times when majors can register, you are required to wait until your registration time. For example if you are an Art Ed and Illustration double major, you must meet with your Art Ed advisor before registering for Art Ed sections and then meet with your Illustration advisor in order to register for IL sections. You must also wait until specific time that IL majors are instructed to register.

**Failure to meet with your advisor from one of your majors or registering early will result in your classes from that major being dropped.**
